

# A Virtual Workshop on Post-Secondary Education for Ontario Youth

**Are you aged 15 to 18 and curious about the university experience?**

**Are you interested in university-level research opportunities?**

**Do you want to learn how to prepare for the transition from high school to university?**

This spring, McMaster University's Department of Sociology invites you to participate in a 60-minute virtual workshop to explore these topics and answer your questions about the university experience.

During the workshop, you'll participate in interactive activities exploring how your neighbourhood impacts your mental health, how university experiences can influence students' well-being, and how COVID has shaped all of our daily experiences.

**Your participation may be eligible as a contribution towards your OSSD community service requirement.**

Visit our website to learn more about the event and to register for a spring workshop (dates to be announced).

*The initiative is funded by the Ontario Ministry of Economic Development, Job Creation and Trade.*

## WORKSHOP CONTACTS
